

Venator Alternative Income Fund

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the year ended December 31, 2019

This Annual Management Report of Fund Performance (“MRFP”) contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can obtain a free copy of the interim financial report or annual Financial Statements at your request, at no cost, by calling Venator Capital Management Ltd. directly at 416-934-7994; by writing to us at Venator Capital Management Ltd., 2 Bloor Street West, Suite 901, Toronto, ON, M4W 3E2; by email to info@venator.ca; or by visiting our website at www.venator.ca/resources or the SEDAR website at www.sedar.com.

Unitholders may also contact us or visit our website to obtain a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, and Fund-related quarterly disclosure at no cost.

This Annual Management Report of Fund Performance represents management’s view of the significant factors and developments affecting the investment fund’s performance and outlook until December 31, 2019.

Please refer to the Fund’s Simplified Prospectus, Fund Facts and the 2019 audited annual Financial Statements for more information.

Caution regarding forward-looking statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or negative versions thereof and of similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risk, uncertainties and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these differences, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

Please note that the afore-mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and urge you to avoid placing undue reliance on forward-looking statements. The forward-looking information contained in this report is current only as of the date of this report. Further, you should be aware that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Management Discussion of Fund Performance

The management discussion of fund performance presents the view of the portfolio management team concerning significant factors and developments that have affected the Fund’s performance and outlook.

Please read the caution on the preceding page regarding forward-looking statements.

Investment Objectives and strategies

The investment objective of Venator Alternative Income Fund (the “Fund”) is to provide unitholders with long-term returns through an actively managed and diversified portfolio of primarily global fixed income securities by opportunistically utilizing both long and short positions.

The Fund will primarily invest, directly or indirectly through the use of derivatives, in global developed markets fixed income securities including, but not limited to, government bonds, corporate bonds, bank loans, high yield bonds, securitized credit tranches, convertible bonds, preferred shares, common equity and cash and/or cash equivalents. The Fund has a flexible mandate to invest in both investment grade and non-investment grade securities.

The fundamental investment objective of the Fund will not change without consent of a majority of voting unitholders of the Fund.

Exemptions from National Instrument 81-102

The Fund is subject to certain restrictions and practices contained in securities legislation, including National Instrument 81-102 (“NI 81-102”), which are designed, in part, to ensure that the investments of mutual funds are diversified and relatively liquid and to ensure the proper administration of mutual funds. We intend to manage the Fund in accordance with these restrictions and practices or to obtain relief from the securities regulatory authorities before implementing any variations. The following provides a description of the exemptions that the Fund has obtained from the provisions of NI 81-102, and/or a description of the general investment activity.

The Fund has obtained the following exemptions from NI 81-102:

- Subsection 9.3(1), to permit the Fund to process orders for its units, as described in the simplified prospectus and Fund Facts, on a semi-monthly basis at their class NAV per unit calculated as at the last Valuation Date of the semi-monthly period in which the purchase order for such units is received (the “Purchase Processing Frequency”); and
- Subsection 10.3(1), to permit the Fund to process redemption orders for its units, as described in the simplified prospectus and Fund Facts on at least 7 business days prior written notice, on a semi-monthly basis, redeeming such units at their class NAV per unit calculated on the last Valuation Date of each semi-monthly period in which the redemption order for such units is processed (the “Redemption Processing Frequency”).

Risk

The risks of investing in the Fund remain as outlined in the simplified prospectus. The Fund is suitable for investors looking for a diversified portfolio of short-dated fixed income securities to hold as part of balanced portfolio. The Fund is an alternative to traditional

fixed income funds and appropriate for investors with low risk tolerances, who also have a medium-to-long term time horizon.

Results of operations

The management discussion of Fund performance presents the views of the portfolio management team concerning significant factors and developments that have affected the Fund’s performance and outlook. Please read the caution on the preceding page regarding forward-looking statements.

Class F Units of Venator Alternative Income Fund returned 8.1% for the 1-year period ended December 31, 2019 (“Reporting Period”), versus 13.2% for the Fund’s benchmark. The Fund’s benchmark is comprised of a 75% weighting in the Bank of America Merrill Lynch High Yield Index and a 25% weighting in the Bloomberg Canadian High Yield Index. Unlike the benchmark, the Fund’s return is quoted after the deduction of fees and expenses. Returns for other series of the Fund may vary, largely due to difference in fees and expenses. Please refer to the Past Performance section for returns of the various unit classes offered by the Fund.

Market Update

Over the reporting period the Canadian and US economies enjoyed strong labour markets and continued growth; however, global growth moderated and business sentiment was challenged, while the consumer stayed strong. Sentiment was also impacted by trade uncertainty between China and the U.S. resulting in increased volatility. For the first time since 2008 the U.S Federal Reserve cut rates, commenting that they would “act as appropriate” to sustain the country’s longest ever economic expansion. In the end, the Fed cut a total of three times in 2019, each by 25 bps, and exited the year with a targeted rate range of 1.50-1.75%. The Bank of Canada held rates constant at 1.75% throughout 2019, paying close attention to factors such as global manufacturing, currency, oil prices, consumer spending and housing prices.

Globally, growth continued to slow in 2019 falling to 2.3%, the lowest level over the past decade. Manufacturing activity was hit particularly hard, and central banks worldwide responded by cutting interest rates. Overall, 40 central banks cut rates throughout 2019 in hopes of boosting economic activity, with several moving into negative rate territory.

The global economy appeared to stabilize exiting the fourth quarter as the U.S. and China reached a Phase One trade agreement; and more clarity was achieved around Brexit when Boris Johnson’s Conservative party won a majority government. As a result, yields began to increase slightly in hopes of an improved global macroeconomic outlook. The increase in yields was more significant on the longer end of the curve, and the yield curves in the U.S. and Canada became ‘un-inverted’ towards year end, indicating a more normalized environment as recession fears dissipated.

Corporate bond spreads tightened throughout most of 2019 as investors hunted for yield. Risk assets were supported by accommodative fiscal policy leading to this tightening of spreads (the Option Adjusted Spread (OAS) of the ICE Bank of America Merrill Lynch US High Yield Master II bond index declined from 533 at the beginning of 2019 to 360 by year end). The North American high yield market was up approximately 13% in 2019.

Key Contributors/Detractors

The Fund underperformed its product benchmark over the Reporting Period. The following factors contributed to this result:

- The Fund’s portfolio was comprised of shorter term-to-maturity bonds (average term-to-maturity was 3.25 years); while the benchmark’s average term to maturity was 5.96 years. Longer duration high yield bonds benefitted more from the decline in rates during 2019 as compared to shorter duration bonds.
- The benchmark has in excess of 1800 securities, most of which do not fit the risk profile of the Fund. Comparatively, the Fund held approximately 40-50 securities throughout 2019.

Subsequent event disclosure

EVENTS AFTER STATEMENT OF FINANCIAL POSITION DATE

In January 2020, the World Health Organization declared the coronavirus a global health emergency and on March 11, 2020, they declared it as a global pandemic. Markets are prone to volatility and the COVID-19 virus has presented many uncertainties. COVID-19 is threatening the outlook for future global trade and GDP. This uncertainty has translated into wide spread fear across equity and bond markets and global investment markets have moved significantly lower since December 31, 2019.

There have been no other significant events after the Statement of Financial Position date which, in the opinion of the Manager, requires disclosure in the financial statements.

Related party transactions

For the year ended December 31, 2019, Venator Capital Management Ltd. was responsible for the day-to-day business operations and affairs of the Fund and, on this basis, was entitled to fees as described under “Management Fees” and “Performance Fees” below.

Management Fees

As a result of providing investment and management services, Venator Capital Management Ltd. receives a management fee calculated and accrued daily based on the NAV of the class of units of the Fund, plus applicable taxes, payable on the last day of each calendar month. For the period ended December 31, 2019, the Fund incurred management fees of \$729,849 plus applicable taxes.

Management fees, if any, in respect of Class I units are direct fees negotiated with the investor.

Venator Capital Management Ltd. uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund’s units, investment advice, as well as general administrative expenses relating to Venator’s role as Manager.

The annual management fees and a breakdown of the major services rendered for each series, as a percentage of the management fees paid, are as follows:

As a Percentage of Management Fees			
Class of Units	Annual Mgmt. Fees	Dealer Compensation	General Administration & Investment Advice
Class F	1.00%	-	100.00%
Class A	2.00%	50.00%	50.00%

Please Note: There are no management fees paid by the Fund in respect to Class I Units of the Fund. Class I unitholders pay a negotiated fee directly to Venator Capital Management Ltd.

Performance Fees

If the Fund generates a net profit (after payment of all other fees and expenses), the Manager is eligible to receive a performance fee in respect of each class of unit of the Fund on each performance valuation date, based on the amount by which the NAV of a unit of each class on the valuation date exceeds an annualized current year return of 5% over the class high-water mark (the “threshold rate”).

High-water mark means the highest NAV of a unit of such class on any performance valuation date, as adjusted for any distributions declared on such unit from the date of such NAV to the last valuation date in the previous calendar year (“adjusted NAV per unit”). The calculation of the NAV of a unit of a class will therefore exclude the effect of any distribution on units of such class. The performance valuation date means the last valuation date in each calendar year.

In any period in which the performance fee is payable and the NAV per unit of a class exceeds the high-water mark, unitholders of such class will be entitled to, with respect to each unit held of such class, (i) all of the increase in the adjusted NAV per Unit up to the threshold rate and (ii) 90% of any increase in adjusted NAV per Unit in excess of the threshold rate plus 0.5%. The Manager will be entitled to (i) all of the increase in adjusted NAV per Unit between the threshold rate and the threshold rate plus 0.5%, and (ii) 10% of any gains in excess of the threshold rate plus 0.5%.

For example, for all units on an annualized basis, the return will be allocated such that any return above the High Water Mark from (i) 0.001% to 5% will be accrued to the unitholders’ benefit; (ii) 5.001% to 5.5% will be accrued to the benefit of the Manager in the form of a performance fee; and (iii) above 5.5% will be accrued 90% to the benefit of the unitholders and 10% to the Manager as a performance fee.

The performance fee will be accrued for each class of units on a semi-monthly basis with any such accrued performance fee payable to the Manager on the Performance Valuation Date.

The Manager shall also be entitled to receive a performance fee in respect of units redeemed as if the redemption date were a performance valuation date, with such performance fee to be paid on or before the 10th business day following the performance valuation date or redemption date, as the case may be. Performance fees are subject to applicable taxes including HST.

Investors in Class I units may negotiate a different performance fee than the one described above, which not exceed the performance fee payable on Class A units, Class D units or Class F units of the Fund.

For the year ended December 31, 2019, the Fund incurred performance fees of \$539,849 plus applicable taxes.

Other Related Party Transactions

The Manager, its officers and directors invest in units of the Fund from time to time in the normal course of business. All related party transactions with the Manager are based on the applicable NAV per class of unit for each transaction date. As of December 31, 2019, 1,586,503.1980 Class F Units were held by the Manager and unitholders related to the Manager, totaling approximately 15.0% of the Fund’s NAV.

Independent Review Committee

Venator appointed an Independent Review Committee (“IRC”) consisting of three independent members, which was established under the Canadian Securities Administrators’ National Instrument 81-107 (the “Instrument”). The IRC’s mandate is to review and provide input on the Manager’s written policies and procedures that pertain to conflict of interest matters with respect to the funds managed by Venator.

The Fund receives standing instructions (the “SI”) from the IRC. The SI constitutes a written approval or recommendation from the IRC that permits the Manager to proceed with specific action(s) set out in the SI on an ongoing basis. The SI is designed to ensure that the Manager’s actions are carried out in accordance with the law, the instrument and the Manager’s policies and procedures in order to achieve a fair and reasonable result for the Fund. The SI outlines actions related to (a) Fees and Expenses, (b) Trade Allocations, (c) Broker Selection, (d) Portfolio Pricing Issues, amongst other things. The Manager must provide the IRC with a written report summarizing each instance where the Manager has relied on the SI. For the period ended December 31, 2019, the IRC did not provide any recommendations to the Manager.

Additional information about the IRC is available in the Simplified Prospectus and Annual Information Form for the Fund. IRC members receive fees and reimbursement of expenses for services provided to the Fund.

Past Performance

The following charts show how the Fund has performed in the past and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions and would be lower if an investor did not reinvest distributions. They do not include deduction of sales, switch, redemption, or other optional charges (which dealers may charge) or income taxes payable, and these returns would be lower if they did. The Fund’s past performance does not necessarily indicate how it will perform in the future.

Year-by-year returns

The bar charts below illustrate how the Fund’s performance has varied from year to year for each of the years shown. They show, in percentage terms, how an investment made on January 1st would have increased or decreased by December 31st for each year ending December 31, 2019.

Annual compound returns

The tables below summarize the Fund’s annualized performance for its Class A & F units, as well as the Fund benchmark, as of December 31, 2019.

	1-YR	3-YR	5-YR	10-YR
Venator Alternative Income Fund (Class F)	8.1%	5.5%	4.7%	9.1%
Venator Alternative Income Fund (Class A)	7.1%	4.5%	3.7%	8.1%
Fund Benchmark	13.2%	6.5%	6.3%	7.5%

*Fund benchmark is 75% Bank of America Merrill Lynch High Yield Index and 25% Bloomberg Canadian High Yield Corporate Bond Index

Financial highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past 5 years. This information is derived from the Fund's annual audited Financial Statements.

Class A	2019	2018	2017	2016	2015
Fund's net assets per unit (Note 1)					
Net assets per unit, beginning of period	\$ 5.52	\$ 5.78	\$ 5.69	\$ 5.31	\$ 5.95

Financial highlights (continued)

Notes

1. Net assets per unit is calculated as follows:
 - a) This information is derived from the Fund’s 2019 audited annual financial statements
 - b) Net assets per unit of a class are based on the number of units outstanding for that class at the relevant time. The increase (decrease) from operations per unit of a class is based on the weighted-average number of units outstanding for that class during the year.
 - c) Distributions per unit of a class are based on the number of units outstanding for the class on the record dates for distributions. Distributions were reinvested in additional units of the Fund.
 - d) The financial highlights are not intended to act as a continuity of the opening and closing net assets per unit.
2. The net assets are calculated in accordance with IFRS.
3. This information is presented as of December 31 of the calendar year shown
4. The management expense ratio (“MER”) is calculated as the total expenses paid by each class of the Fund, including applicable taxes and excluding margin interest, commissions and other portfolio transaction costs, as an annualized percentage of the daily average NAV of each class of the Fund during the period. In the period a class is established, the MER is annualized. The Manager, at its sole discretion, waives or absorbs expenses. Such waivers and absorption can be terminated at any time. Fund MERs are shown both with and without the waiver and absorptions.

Fund level ratios (Class A & F)	2019	2018	2017	2016	2015
Trading expense ratio (Note 5)	2.43%	2.67%	1.64%	1.08%	0.95%
Portfolio Turnover rate (Note 6)	106.69%	118.85%	121.96%	110.85%	72.35%

5. The trading expense ratio represents margin interest, borrow fees on investments sold short, total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund’s daily average NAV. The trading expense ratio is calculated at the fund level and applies to all classes of the Fund.
6. Portfolio turnover rate is calculated at the fund level based on the lesser of purchases or proceeds of sales of securities for the year, excluding cash, short term notes and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the year. The Fund’s portfolio turnover rate indicates how actively the Fund’s portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all the securities in its portfolio once in the course of the year. The higher a fund’s portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance.

Summary of Investment Portfolio (as at December 31, 2019)

The Summary of Investment Portfolio will change due to ongoing portfolio transactions of the Fund. A quarterly update is available - to obtain a copy please consult our website at www.venator.ca/resources; call us at 416.934.7998; or email us at info@venator.ca.
