

FUND OVERVIEW

Launched June 2021, Venator Founders Alternative Fund is a North American long/short equity mandate which strives to capitalize on exceptional investment opportunities in the capital markets. The Fund focuses on business fundamentals with a bottom-up strategy and a philosophy that great investment opportunities can make money in any market environment. Proprietary screening tools are utilized to uncover potential opportunities, which is then followed by a fundamental due diligence process, to help identify truly great public market investment opportunities. The portfolio tends to often hold several under-followed businesses from across North America.
